

UKG InTouch DX

A reimagined timeclock experience for the modern workforce

Say Hello to the Timeclock of the Future

The future of work is people. That means your organization needs technology that inspires and empowers employees and managers to work productively. An engaging employee experience should start at punch-in and continue throughout the shift — helping your people stay informed and manage tasks with ease.

Meet the UKG InTouch™ DX, an innovative timeclock designed for the future of work. It provides the ease of use and personalization today's employees expect, while harnessing built-in intelligence to surface important issues and present relevant actions in context for more efficient interactions. Plus, the UKG InTouch DX works seamlessly with the next-generation UKG Dimensions™ (formerly Workforce Dimensions™) suite to help drive accurate timekeeping, collaborative scheduling, regulatory compliance, and real-time access to the latest employee data.

Combining advanced functionality with operational simplicity, the game-changing UKG InTouch DX redefines what's possible from a timeclock, helping you manage and engage your workforce like never before.

Future-ready hardware for how people work today — and tomorrow

With its sleek design and slim profile, the UKG InTouch DX embraces the best of modern consumer electronics. A large, super-responsive touchscreen and optimized viewing angle ease and speed interactions. Employees can punch in and out faster than ever and navigate to their schedule, time-off requests, and timecard all from one screen. An always-on time and date display and illuminated card reader icons let users get right down to business for a better employee experience.

The UKG InTouch DX combines ergonomic features with a rugged, industrial design that stands up to serious abuse in even the toughest work environments. It's amazingly easy to install and service, and it offers an intuitive interface that's simple to learn and use. Best of all, the UKG InTouch DX is future-ready, so you can take advantage of breakthrough technologies as they become available to keep pace with change and realize maximum value.

large, super-responsive touchscreen

punch in and out faster than ever

A super-intelligent timeclock that puts convenience first

The UKG InTouch DX is designed with efficiency and convenience in mind, anticipating the user's next task and combining related actions for faster interactions. For example, My Time brings the timecard and schedule together so employees can compare punches to scheduled hours — quickly and easily — to verify accuracy and minimize exceptions.

But the convenience doesn't stop there. The UKG InTouch DX empowers users to perform common actions, such as punch-in/-out, view punch status, review punches, and transfer between jobs, locations, or projects, at multiple clocks during a single shift. Administrators can configure UKG InTouch DX devices across your facility to enforce schedule restrictions, and the clocks access and enter employee data in the cloud in real time. That way, your people can interact with the most convenient timeclocks throughout their shift for enhanced efficiency and seamless continuity.

A truly engaging employee experience starts right here

The UKG InTouch DX's streamlined navigation and intelligent features provide an intuitive, personalized experience that's designed to delight and built to engage. After users authenticate, SmartLanding instantly alerts them of unread messages and status updates since their last check-in. The device pushes the latest notifications — from punch-in/-out confirmation and time-off approvals to schedule updates and shift-swap requests — right to the employee, so there's no need to hunt and peck for information.

With UKG InTouch DX, employees authenticate once and log in to Individual Mode, where a personalized home screen provides one-stop access to frequently used self-service transactions. Users can request time off, view accruals, swap shifts, and more — without having to present their badge for each separate task.

Key features

Large, 7" capacitive touchscreen with wide VGA full-color LCD

With its super-responsive touchscreen and reimagined user experience, the UKG InTouch DX drives rapid adoption and new levels of efficiency.

A personalized experience with real-time notifications

SmartLanding surfaces the issues and tasks that require immediate action, and Individual Mode provides instant access to employee-specific transactions.

Streamlined navigation for faster interactions

My Time brings the timecard and schedule together so employees can compare punches to time worked — without all the back and forth.

Optimized viewing angle for ergonomic use

The front panel is angled to optimize viewing when mounted at the height required by the Americans with Disabilities Act.

A rugged device designed for virtually any environment

With its industrial-strength enclosure, the UKG InTouch DX is extremely durable and reliable — even in the toughest, grimmest workplaces.

Multiclock schedule enforcement across your facility

Real-time access to the cloud lets employees and managers perform key transactions at any UKG InTouch DX during their shift for greater convenience.

Multilanguage support for your diverse workforce

UKG InTouch DX users can select their preferred language from the multiple options supported by UKG Dimensions.

Optional biometric authentication to prevent time theft

The UKG InTouch DX works with all major badge and card formats, and supports biometric identification and verification for added security and convenience.
